

Adversarial retention experiment v2: construction and evaluation ledgers are disjoint

(a) Held-out and OOD coverage

(b) Controlled extrapolation

(c) Strong DSE and CRG can coincide at equal scope

Policy	Retained	Joint OOD miss	p95 regret
Initial Pareto	2-3	27.91%	12.23%
Robust Pareto union	4-5	0.02%	0.00%
Minimax DSE	2-4	10.16%	7.75%
CRG ledger cover	2-4	10.16%	7.75%
CRG universal	5	0.00%	0.00%

(d) Capability change requires reopening
